

Suliman Elhaj

Title: Veterinarian & Anti-parasitic Specialist **Location:** USA **Age:** 35

Professional Summary

Doctor of Veterinary Medicine (DVM) from the University of Khartoum with a clinical focus on anti-parasitic treatment and control in ruminants. My work has centered on diagnosing, managing, and preventing parasitic infections in cattle, sheep, and goats — combining evidence-based protocols with practical field experience. With a strong foundation in veterinary pharmacology and parasite biology, I have developed expertise in the selection and application of anti-parasitic agents, resistance management, and herd health programs tailored to ruminant populations. Currently actively engaged with the Sudanese American Veterinary Association (SAVA), I remain committed to advancing veterinary science and contributing to the professional community.
